## ARTICLE

**143 German Occupational Safety and Health Regulation From an American Perspective**

*Kenneth S. Kilimnik*

This article presents an inquiry into German occupational safety and health standards as compared to their United States counterpart, the Occupational Safety and Health Act. After an examination of the regulatory framework, standard-setting procedures, and enforcement procedures of both countries, the author offers realistic recommendations, based on the best of both countries' safety and health provisions.

## COMMENTS

**237 The Principle of Religious Liberty and the Practice of States: Seek and Ye Shall Find a Violation of Human Rights Obligations**

*Scott A. Burr*

with a foreword by *Rev. Ernest Gordon*

Is religious freedom a fundamental human right? This comment examines the theological and legal basis for this theory, and through a study and comparison of the laws of four nations, the United States, the United Kingdom, the Republic of India, and the Union of Soviet Socialist Republics, determines the current status of this right. The author submits proposals for bridging the gaps between states' lip service to international law and actual compliance.

**283 More Than Mere Child's Play: International Parental Abduction of Children**

*Elizabeth C. McDonald*

with a foreword by *Senator Alan Dixon*

Divorce is a traumatic time. It is especially traumatic for children who are abducted by a parent. This comment examines the international abductions of children and the international conventions designed to address these problems. Further, the author sets forth steps and gives advice for parents and attorneys caught in an international abduction case.
